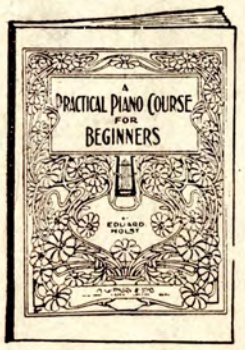
A PRACTICAL PIANO COURSE FOR BEGINNERS

By EDUARD HOLST



THIS work starts the pupils at the very beginning and carries them by easy stages, step by step, to the early third grade music. The technical explanations are most easy to understand, and never does this course of instruction become tiresome to the student. At every opportunity the composer has inserted a recreative melody, rather than a tedious exercise.

CONCENTRATION AND TECHNIC

IN FOUR VOLUMES — By LOUIS STILLMAN

Piano Exercises for Developing the Fingers

IN order to become an accomplished pianist it is necessary to have perfect control over the muscles of the fingers. The exercises contained in "CONCENTRATION AND TECHNIC" have been constructed mainly for that purpose, and if systematically practiced cannot help but bring the necessary result.

The work faithfully lives up to his title, for it has a mental and muscular influence on the mind and fingers which encourages confidence and ease in playing in any key and scale.

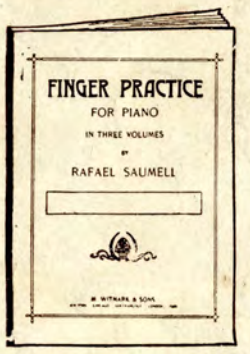
FINGER PRACTICE

IN THREE VOLUMES — By RAFAEL SAUMELL



THE product of practical experience and the only work with a laudable mission on the market, i. e., to give the muscles of each finger the necessary agility to properly execute all intricate passages with apparent ease.

The flattering testimonials received from pedagogic authorities prove that these books are destined to become thumb-marked volumes in every ambitious student's library. The exercises for the passing of the thumb are an acquisition indeed. Mechanically they represent the greatest excellence in engraving and printing, the very best material being used throughout.
